Introduction of Pi Union

- Project starts as a community token that will find its utility with the development of an NFT and DEX ecosystem. We will use various protocols to bring the project up and to make value for the community.
- Our strengths are our transparency, a strong work ethic, our projects and protocols, and the commitment and seriousness that we put into developing and taking the project to the top. But the big difference is the strength of our great community that will support us and the project step by step. And of course, we pay you to hold and stake the tokens from the reward wallet.

Mechanism of PI Union

Total Taxation : 8%

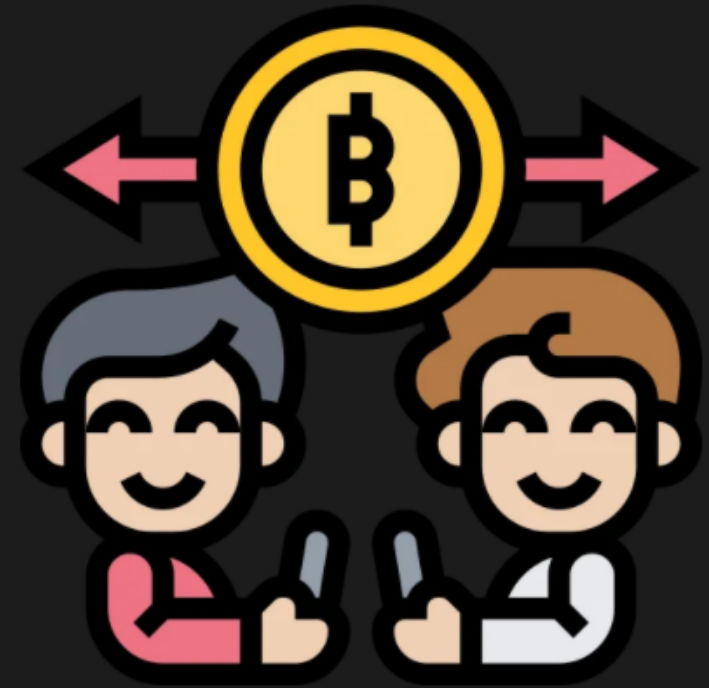

Liquidity

2% of every sell and buy amount will be allocated to the liquidity pool automatically

Marketing

3% of every sell and buy amount will be allocated to the marketing wallet and used for marketing and promotion of PI Union

Reward Wallet

3% Tax will be allocated to a reward wallet
Redistribution FOR

- Diamond hands(70%)
- Community leader and volunteer (20%)
- Lottery pool for Pi Union holders (10%)
